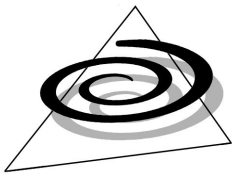
Reflexology New Zealand Continuing Professional Development Log for Professional Members



Points are gained from two categories:

- On going education in reflexology and related therapies
- Promotion of both RNZ and reflexology as a modality

It is important to gain points from both categories, it is mandatory for all Professional members to participate in up-skilling activities to maintain their Professional status and is required by the New Zealand Charter of Health Practitioners of which RNZ is an affiliate signatory.

During the membership year 1st July to 30th June please complete the table below as a record of achieved points. For guidelines on how to achieve points please refer to the 'guideline sheets'.

Details of Education or Promotional Event	Date	Points claimed	Name of tutor (or verified by)	Signature (or evidence attached)

Continue on a separate sheet if required
